KathyAnne Art has over 650 images and 20 online tutorials and workshops. A new mini-workshop free to members is posted every month so the online workshop number grows monthly. There are also workshops that have workbooks and videos that go with the workshop. These workbook/video workshops are 20% off to members of KathyAnneArt. Ebooks appear in the tutorial section. These ebook downloads are 20% off to members.

Members need to sign in to get the membership pricing. If you have any questions about pricing or what is free to members and what is not, after you sign in, you can add an item to your cart and it will show you the member pricing. If you are not a member, the price will be what you see on the item itself.

If you are a new member, you can download any of the mini workshops that were posted before you joined. If it is free to a member, it doesn't matter when you join you now have access to any image or tutorial or mini workshop for no charge. The workshops never expire, as long as you are a member you can download files again that appear in your list under your membership. If your membership expires, you will need to rejoin to access your list. Your files can all be downloaded to your computer and saved.

In some cases, when you download a file it will have a .html on the end of the file name. If you open the file and you can't read it, just remove the .html from the end of the file name. Once the .html is removed you will be able to open and read the file. If you have any problems with this, contact KathyAnne- <http://www.kathyanneart.com/contact.html>
